PERFORMANCE, EVEN
IN THE OVEN.**

MAESTRALE induction

design by Alberto Meda

“Simple, almost organically inspired shapes, because our attention is focused not on the shape itself but on the relationship between the item and its user.”

This elegant and versatile line has been designed to work on any heat source, including induction. And thanks to the steel handles, all of the items are also oven safe – a response to the very latest demands for rationalising the number of items in kitchens that continue to grow smaller, but which are ready to welcome an increasing number of accessories.
