## CHARACTERISTICS

- The diamond-reinforced coating and non-stick performance remain constant over time.
- Twice the lifetime of the traditional non-stick coating. Thanks to the protective barrier with diamond powder, the bottom of the pan is enriched with an exclusive hardness and resistance to scratching.
- Easy to hand wash : the non-stick, protective qualities of DIAMANTEK PRO by TVS mean food and cooking residues are easy to wipe away.
- Thanks to the handle thermal chromatic sensor, you always know when to start cooking at the right time.
- Thanks to the steel disc it can be used on any heat surface, including induction. The brushed bottom is a guarantee of non-slip grip on the cooktop.
- Excellent resistance to saline corrosion, tomato and dishwasher detergents.
- All TVS non-stick coatings are free from nickel, heavy metals, PFOA and PFOS.
