

WHY BUY?

materia induction

IT'S SCRATCHPROOF

Thanks to the **R3SISTEK by TVS** non-stick coating, metal utensils glide over the surface without scratching it

IT'S VERSATILE

The steel handle is designed not to scald when used on a cook top, offering a firm grip and comfortable use in the kitchen

IT'S GUARANTEED

Designed to withstand every challenge in the kitchen, and to last a lifetime

IT'S SAFE

Like all TVS lines, the coating is free from nickel, PFOA, PFOS, lead, and cadmium

IT'S PRACTICAL

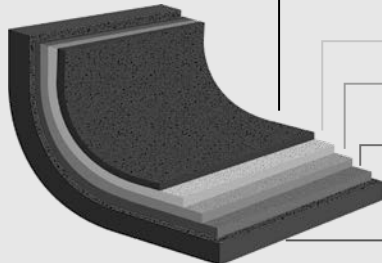

Easy to clean by hand and dishwasher safe

IT'S ELEGANT

The shapes and colours make Materia induction impeccable in the kitchen and stylish on the table

R3SISTEK BY TVS: NON-STICK COATING WITH ULTRAHARD SURFACE FEATURING EXTREMELY HARD RIDGES.

1. High-thickness base layer with exceptional hardness to provide extraordinary resistance to scratching and abrasion
 2. Intermediate layer reinforced with ultra-hard mineral particles
 3. First finishing layer for improved resistance
 4. Second finishing layer for lasting non-stick and better heat conduction
- Sandblasted aluminium sublayer to guarantee better adhesion

FOR YOUR SAFETY.

The TVS Quality Management System is certified and every product is designed, tested and checked to make sure of absolute suitability for use with foods and the safety of its non-stick coatings.

FOR YOUR WELLBEING.

All TVS coatings are free from Nickel, heavy metals and PFOA!

FOR SUSTAINABILITY.

The high-gauge aluminium body guarantees excellent heat diffusion and great temperature stability. This means great energy savings for the environment and the economy.
