

WHY BUY?

tenace induction

IT'S EXCLUSIVE

The champagne-coloured exterior and protected handle, designed by Takahide Sano make it totally unforgettable

IT'S STATE OF THE ART

Next-generation induction for excellent heat transmission that reaches the ideal temperature more quickly

IT'S STRONG

The non-stick coating has been boosted with mineral particles and diamond powder for excellent resistance to scratching and abrasions

IT'S VERSATILE

Its performance is excellent on induction and all other heat sources

IT'S SAFE

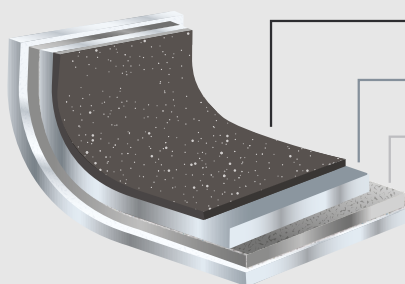

Like all TVS lines, the coating is free from nickel, PFOA, lead, and cadmium

IT'S EFFICIENT

Thanks to the steel disc that makes it perfect on all heat sources for excellent energy yield on induction cook tops

NON-STICK COATING WITH DIAMOND REINFORCEMENT (3 LAYERS)

3. Diamond-effect finishing layer

2. Intermediate reinforcement layer

1. Bottom layer reinforced with ultra-hard mineral particles and diamond powder

Aluminium body with sandblasted surface to guarantee improved non-stick coating grip

FOR YOUR SAFETY.

The TVS Quality Management System is certified and every product is designed, tested and checked to make sure of absolute suitability for use with foods and the safety of its non-stick coatings.

FOR YOUR WELLBEING.

All TVS coatings are free from Nickel, heavy metals and PFOA!

FOR SUSTAINABILITY.

The high-gauge aluminium body guarantees excellent heat diffusion and great temperature stability. This means great energy savings for the environment and the economy.
