

WHY BUY?

virtus induction

SUPER NON-STICK

The whole surface is 100% non-stick for fat-free cooking that's easy to clean

SCRATCHPROOF

Thanks to the R3SiSTEK by TVS non-stick coating, metal utensils glide over the surface without scratching it

TOP PERFORMANCE

With a steel disc to make the bottom perfectly flat and highly energy efficient when used on induction

RESISTANT

A lasting non-stick coating that is perfectly dishwasher safe

RELIABLE

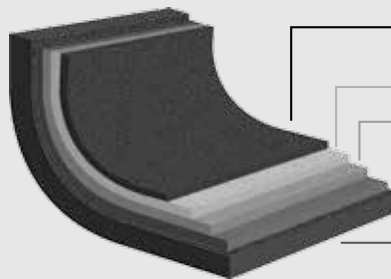

Free from substances such as PFOA, lead and cadmium

HIGH-TECH

Perfect on induction and on all heat surfaces

A NEW SCRATCHPROOF NON-STICK SURFACE (4 LAYERS)

1. High-thickness base layer with exceptional hardness for extraordinary resistance to scratching and abrasion
 2. Middle layer reinforced with ultra-hard mineral particles
 3. First finishing layer for improved resistance
 4. Second finishing layer for lasting non-stick quality and improved thermal conductivity
- Substrate in sandblasted aluminium to guarantee better adherence

FOR YOUR SAFETY.

The TVS Quality Management System is certified and every product is designed, tested and checked to make sure of absolute suitability for use with foods and the safety of its non-stick coatings.

FOR YOUR WELLBEING.

All TVS coatings are free from Nickel, heavy metals and PFOA!

FOR SUSTAINABILITY.

The high-gauge aluminium body guarantees excellent heat diffusion and great temperature stability. This means great energy savings for the environment and the economy.
