

# WHY BUY?

## solida titan plasma

### IT'S RESISTANT

It has an extraordinary ability to withstand abrasion and can be used with metal utensils.

### IT'S UNBEATABLE

Titan Plasma technology applied to the coating means a guaranteed performance of up to 400 times more than a normal non-stick coating.

### IT'S VERSATILE

The line works on all heat sources, including induction.

### IT'S SUPER NON STICK

Professional, reliable, and unbeatable in the kitchen: it distributes heat evenly and does not suffer thermal shock.

### IT'S GUARANTEED

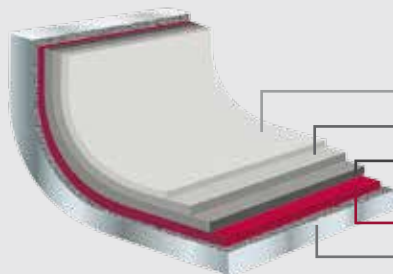

Solid and built to last a long, long time, even with heavy-duty use at high temperatures.

### IT'S PRACTICAL

Extremely easy to clean and incomparably dishwasher safe.

ULTRA-HARD LAYER OF TITANIUM  
NON-STICK COATING REINFORCED WITH  
ULTRA-HARD MINERAL PARTICLES (3 LAYERS)

- 4. Non-stick finish
  - 3. Intermediate layer
  - 2. Layer of base coating reinforced with hard mineral particles
  - 1. Ultra-hard layer of titanium layer
- Sandblasted aluminium

### FOR YOUR SAFETY.

The TVS Quality Management System is certified and every product is designed, tested and checked to make sure of absolute suitability for use with foods and the safety of its non-stick coatings.

### FOR YOUR WELLBEING.

All TVS coatings are free from Nickel, heavy metals and PFOA!

### FOR SUSTAINABILITY.

The high-gauge aluminium body guarantees excellent heat diffusion and great temperature stability. This means great energy savings for the environment and the economy.
